Of 24/07/2008

SECTION VI: COMPLEMENTARY INFORMATION

VI.1) GENERAL ADDITIONAL INFORMATION Tenderers are hereby advised that a notice of correction is available

VI.2) MODIFICATION OF DATES

VI.3) OTHER ADDITIONAL INFORMATION/CORRIGENDA Construction Framework South West (CFSW): Additional Information: Applications from Consortia: Construction Framework South West reconfirms that it is prepared to consider consortium bids. Organisations which may be considering consortium arrangements through which to construct their bid are asked to consider the following guidance: Within the procurement process consortium applications will be required to satisfactorily demonstrate the basis on which the consortium is structured. Consortium bids will be required to meet the same selection criteria as all other applicants. If any consortia are selected following the tender evaluation, consortium set up arrangements must be formally concluded prior to any contracts being awarded to them under the Framework. Applications from Groups of Companies: In order to maximise competition and provide an open and transparent process for contractor selection and to avoid any potential for collusion, Construction Framework South West requires company groups to nominate a single company within their group to represent the group. The nominated company selected is at the discretion of the group and may either be a parent company or a subsidiary.

VI.4) DATE OF DISPATCH OF THIS NOTICE 12/08/2008
